

Do you know a child who may benefit from a Children's Centre service?

You can refer to the Devon Children's Centres in a number of ways depending on a child's age or circumstances. The next few pages explain each referral pathway.

Children aged 0–5 years

A referral for an unborn child and any child under the age of five can be completed by:

1. **Action for Children referral form**
2. **An Early Help Request For Additional Service form**
3. **An invite to a Team Around the Family meeting.**

Children aged 5-8 years

A referral for a child aged 5-8 can be completed in 2 separate pathways depending on the involvement we have previously had with this family.

1. **If a family has previously received 1:1 family support from us in the past** a referral can be completed using the Action for Children referral form, a Request For Additional Service form or via an invite to a Team Around the Family meeting.
2. **If a child has not received family support from us in the past** we ask that the agency currently supporting the family complete an Early Help Assessment and invite us along to a Team Around the Family meeting.

Need more help?

Do contact us for more information regarding our referral process if you require it on the details overleaf

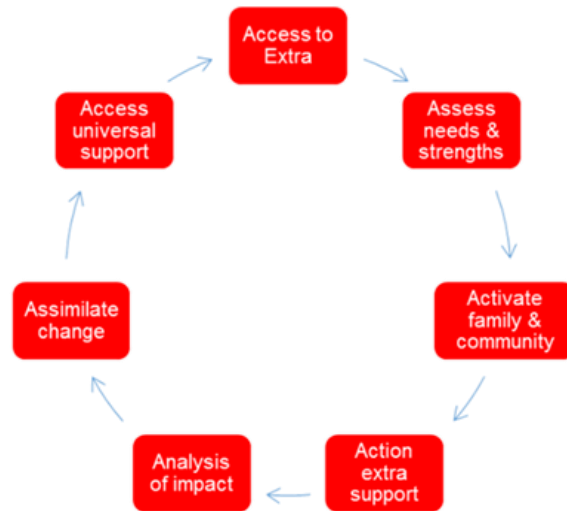

Parenting Offer

All parents and carers of children aged 0-8 years can also access our Parenting offer regardless of their age or previous involvement.

To access this offer a referral form or an Early Help Request For Additional Service form would need to be completed.

The cycle

The service that the family receives in all the instances overleaf depends on the needs of that child and their family and this is determined through our 'Cycle' of support and starts with a starting assessment.

The outcome of the assessment identifies which intervention is most suitable for that child and family. This may be a one to one intervention or group intervention within our centre.

Please see our timetable for details of interventions available [to](#) families.
